

APPLICATIONS ARE NOW OPEN

Deadline: August 31, 2023

Climate Change Fellowship

The Smithsonian will award five 2-year Climate Change Fellowships starting in Fall 2023. Fellows will leverage the Smithsonian's resources, including its researchers, collections, exhibits, and data sets, to advance scientific understanding of climate change and its impacts on nature and human well-being.

Environmental Justice Fellowship

The Smithsonian will award two 2-year Environmental Justice Fellowships starting in Fall 2023. Fellows will leverage the Institution's vast resources and expertise to study environmental injustice and inform potential solutions.

Resilience & Sustainability Science Postdoctoral Fellowship

The Smithsonian is seeking Resilience and Sustainability Science postdoctoral fellowships starting in Fall 2023. Fellows will conduct research, working with key advisors inside and outside of the Smithsonian, focused either on resilience and sustainability in either marine or terrestrial systems.
